Phone 415-726-5566

March 21, 1977

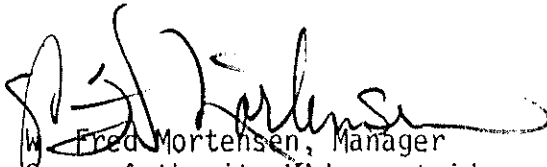

Local Agency Formation Commission  
County Government Center  
Redwood City CA 94063

Gentlemen:

Before approving the Sewer Authority Mid-coastside's consolidated sewage treatment project under its A-95 review process, ABAG required that SAM request that LAFCo conduct spheres of influence studies for the three member agencies of SAM. Accordingly, resolutions were passed in May of 1976 by each of SAM's member agencies, setting forth their intent to make such a request of LAFCo upon receipt of a state/federal grant approval for the wastewater treatment facilities consolidation program.

On December 29, 1976, concept approval was given to the SAM project, together with a Step 2 grant offer. One of the conditions of the grant offer was that within 60 days SAM or its constituent agencies would in fact "request LAFCo to undertake a sphere of influence and urban area service boundary study of the mid-coastside." Following a negotiated increase in the Step 2 grant offer, SAM accepted the grant offer at their regular meeting of January 24, 1977.

In accordance with the previous agreements reached with ABAG and in compliance with the grant condition referred to above, please consider this letter as the formal request by the Sewer Authority Mid-coastside on behalf of its member agencies for LAFCo to undertake a sphere of influence and urban area service boundary study for the mid-coastside as set forth in the attached resolutions. This request is being made within 60 days from the date of acceptance of the grant offer and is therefore considered timely and final in the fulfillment of this grant condition.

  
Fred Mortensen, Manager  
Sewer Authority Mid-coastside
